- had great maps, showed fracture lines
- told of possible well sites
- Route 40 north may be contaminated with salt
- Coach Road toward rt. 40 was swampy
- DOH would get copy of report
- Village should try to get easements to use Summit Lake for whatever we do
- 29,000 gallons daily would be too much for Summit Lake to supply
- if Village finds land someone is willing to sell test wells would be very costly
- doing things at our wells we have a 250ft cone of influence
- must find out where it would be best
- Commissioner is working on engineering report to go along with Mr. Winkley's
- DOH will agree with Mr. Winkley
- Maria wants pilot testing done for filtration and she has to approve it
- Village needs to buy meter for well 6-it is producing most of our water
- monies should be put in budget because there is no guarantee we will get grant money
